

EXPLORING TIMES TABLES

Every times table you need to know is in this picture.
To find them you need two (2) long thin sticks & two pieces of paper.
You can use straws, skewers, long pencils or something else.

It's all about rows. Rows go across your tummy.
Count the rows in the picture. Count the plugs in each row.
Count (or calculate) the total number of plugs.
The big picture is rows of and the total is
..... X =
