## Fax 1

Professor Morris Puzzles are proving popular. Year 7 & Year 8 provided these solutions to the extension we thought of:  
11 pigs, 3 sheep, 76 chickens ---> 90 for £90  
14 pigs, 2 sheep, 64 chickens ---> 80 for £80  
Year 9 saw the work and gave me last lesson 50 for £50, 25 for £25 and 75 for £76 solutions. A wall display and (more challenges) follow.

Fax 2 (10 Days Later)

The Farmer's Puzzle continues to grow. Year 9 boy gave me solutions for 3 animals for £3 up to 100 animals for £100. He also identified those cases that require negative sheep!

The kid must be baa-mee.
